FEDERAL CIVILIAN WORKFORCE STATISTICS

EMPLOYMENT AND TRENDS

*****NOTICE*****

The **Employment and Trends** is now available through the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.
(Order form on next page.)

The **Employment and Trends** (formerly called the **Monthly Release**) presents employment information on the Federal civilian workforce based on reports submitted by each department and agency. Current employment data by branch, agency, and location; 13-month trends of employment, payroll, and turnover; and accession and separation rates are summarized in detailed statistical tables. Monthly employment data are occasionally supplemented by reports from other periodic surveys on the occupational, geographic, and wage and salary characteristics of Federal civilian employees. Please refer to the Table of Contents for the particular data that may be included in this report. The Data Source and Definition section provides details on the method of data collection and definitions of the classifications used in this publication.

This report was prepared under the direction of John E. Curnow, Chief, Statistical Analysis and Services Division. The manager for this report was Anne Ni of the Workforce Information Branch, Charlie F. Taylor, Chief. Additional information may be obtained from the Statistical Analysis and Services Division, Office of Personnel Management, 1900 E Street, N.W. Washington, D.C. 20415; Phone 202-606-1178.

Philip A. D. Schneider, Ph.D.
Assistant Director for Workforce Information
Personnel Systems and Oversight Group

SECTION II -- SPECIAL FEATURES	77

*Data available upon request (See SECTION I).

DATA SOURCE AND DEFINITIONS

Statistics in this report were collected by the Office of Personnel Management and are based on the Monthly Report of Federal Civilian Employment (Standard Form 113A), which is submitted by all departments and agencies of the Federal Government except the Central Intelligence Agency, the National Security Agency and the Defense Intelligence Agency. OPM does not collect personnel data from the District of Columbia Government. Within this report, employment data are reported under the following categories:

WORK SCHEDULES

Full-time employees - those employees who are regularly scheduled to work the number of hours and days required by the administrative work-week for their employment group or class. (Most full-time employees have an administrative work-week of 5 days of 8 hours each.)

Part-time employees - those employees who are regularly employed on a pre-scheduled tour of duty which is less than the specified hours or days of work for full-time employees in the same group or class.

Intermittent employees - those employees who are employed on an irregular or occasional basis, with hours or days of work not on a prearranged schedule, and with compensation only for the time actually employed or for services actually rendered. As of January 1979, an intermittent employee who separated prior to the as-of date of the report is not counted.

POSITIONS

Permanent position - one which has been established without time limit, or for a period of a year or more, or which, in any event, has been occupied for a year or more (regardless of the intent when it was established).

Temporary position - one which has been established for a limited period of less than a year and

which has not been occupied for more than a year.

Related to ceiling - includes all employees covered by the President's employment ceiling as of the report date. Disadvantaged youths under the Stay-In-School Campaign (Schedule A, excepted authority 213.3102(w)), the Summer Aid Program (Schedule A, excepted authority 213.3102(v)), and the Federal Junior Fellowship Program (Schedule B, excepted authority 213.3202(f)), and employees in developmental jobs in the Worker Trainee Opportunity Program are excluded from personnel ceilings. Participants in the Cooperative Education Program are also excluded from personnel ceilings.

FULL-TIME EQUIVALENT EMPLOYMENT

Beginning in Fiscal Year 1982 the full-time equivalent (FTE) resource management system replaced the Executive Branch numerical end-of-year personnel ceilings which had been used to control the size of the Federal workforce for many years. Under the FTE system, workforce estimates assigned to agencies are based on the number of work years required to achieve agency missions and objectives. (One work year is equivalent to 2,080 hours of work which could mean, for example, one employee on a full-time schedule of 40 hours for 52 weeks, or two part-time employees for 20 hours per week each for the same period.) The work year estimate assigned is based on the maximum cumulative number of hours that can be worked by **all** employees covered by ceiling controls, including full-time, part-time and intermittent employees. Each hour worked in the agency during the course of the year (with the exception of overtime and certain other exempt work) is accrued under this ceiling. An agency's full-time equivalency for the current period is the sum of the straight time hours worked during the two biweekly report periods by ceiling-related employees divided by 160 -- this is the number of hours available to a full-time employee during the four-week reporting period.

COMPETITIVE SERVICE

The competitive service consists of all civil service positions in the Executive Branch except: (a) positions that are specifically excepted from the competitive service by or under statute; (b) positions to which appointments are made by nomination for confirmation by the Senate, unless the Senate otherwise directs, and (c) positions in the Senior Executive Service. The competitive service also includes civil service positions outside the Executive Branch that are specifically included in the competitive service by statute.

EXCEPTED SERVICE AND SENIOR EXECUTIVE SERVICE

Title IV of the Civil Service Reform Act of 1978 created the Senior Executive Service (SES). Personnel in the Executive Branch in managerial positions classifiable above GS-15 of the General Schedule and not designated above level IV of the Executive Schedule, or their equivalents, are in the SES. Exceptions include positions in government corporations, intelligence agencies, the FBI, and administrative law judges. The Foreign Service Act of 1980 created a Senior Foreign Service, effective February 15, 1981, which parallels the Senior Executive Service in most respects. Federal employees who are not in the competitive service or SES are in the excepted service. Examples of excepted positions include the entire U.S. Postal Service, Vietnam Era Veterans serving under Veterans Readjustment Act Appointments, positions for which it is not practical to hold competitive examinations, such as teachers in dependents' schools overseas and attorneys, positions of a policy-determining and confidential nature, and most positions, in the Legislative and Judicial Branches. Foreign nationals holding jobs overseas are excepted by Executive Order.

Several tables in this publication report the number of Federal civilian employees in the competitive service and in the excepted service. Senior Executive Service employment is included in the excepted service in the Employment and Trends since both excepted service and SES data are reported together on the 113A monthly report.

APPOINTMENTS

Permanent Appointments - include 1) employees in the competitive service who hold career appointments and who either have completed probation or are not required to serve probation; 2) employees in the competitive service who hold career-conditional appointments, or who hold career appointments and are serving probation; 3) employees in the excepted service whose appointments carry no restrictions such as conditional, indefinite, specific time limitations, or trial periods; 4) employees in the excepted service who are serving trial periods or whose tenure is equivalent to career-conditional tenure in the competitive service; 5) employees in the Senior Executive Service (SES) who are not serving under "limited term and limited emergency" appointments.

Temporary and Indefinite Appointments - include all other employees who do not fall within any of the classifications described under Permanent Appointments.

CITIZENSHIP

Citizens - direct hire employees who owe allegiance to the United States by birth or naturalization regardless of their place of permanent residence or duty station.

Non-Citizens - Territories - direct hire employees who are citizens of another country and whose duty station is in the Territories of the United States (American Samoa, Baker Island, Guam, Howland Island, Jarvis Island, Johnston Atoll, Kingman Reef, Midway Islands (except Ryukyu Islands and Swan Islands), Navassa Islands, Northern Mariana Islands, Palmyra Atoll, Puerto Rico, Trust Territories of the Pacific Islands, Virgin Islands, Wake Island).

Non-Citizens - Foreign Countries - (commonly referred to as "foreign nationals") direct hire employees who are citizens of another country and whose duty station is not the United States or its Territories.

Note: Federal civilian employees (citizens and non-citizens) are direct hire employees, i.e., they are under agreement or contract with the U.S.

Government. Indirect hires (persons who, under agreement or contract with **foreign governments**, provide personal services to the U.S. Government) are not Federal civilian employees, and are not included in any employment figures in the **Employment and Trends**.

PAYROLL

Payroll is the sum of all wages, salaries and lump sum payments earned by Federal Civilian employees. Wages and salaries include gross base pay, overtime, night differential, cost of living allowances and holiday pay. Lump sum payments are monies paid for annual leave to employees who have separated from the Federal Government. Note that the payroll data are collected and presented in thousands of dollars.

ACCESSIONS AND SEPARATIONS

Accessions include appointments from civil service registers which are career or career-conditional appointments, excepted appointments, appointments to the Senior Executive Service, temporary appointments from registers, temporary appointments pending the establishment of registers, reappointments, reinstatements, restorations and returns to duty, and transfers. Separations include quits, discharges, terminations, reductions in force, removals, transfers, extended leave without pay, suspensions, furloughs, deaths, retirements, and displacements. Turnover data reflect employees in all work schedules (full-time, part-time, and intermittent) and all tenures (permanent and temporary and indefinite appointments). In the U.S. Postal Service, turnover data include all categories of postal employment, both career and non-career; non-

career types include temporaries, casuals, and replacements for employees on leave. Turnover data are reported in this publication for the following categories.

Transfers - employees who, without a break in service of one full work day, change from a position in one agency to a position in another agency, including mass transfers of employees between agencies as a result of transfer of functions.

New Hires - new appointments of individuals who currently are not Federal civilian employees to positions in the competitive service, excepted service, and Senior Executive Service, including reinstatements based on prior service.

Restorations, Returns to Duty - includes employees who exercise reemployment rights following military service and those returning to duty following a reduction in force, from suspension or leave without pay that was scheduled to exceed 30 calendar days, from seasonal furlough, or pending action on reopening appeal.

Quits - voluntary resignations by employees or separations by agency if employee declines new assignment (decision not to accept a new job); abandons position (left the job); joins military; or fails to return from military furlough.

As of January 1979 agencies report employment data either as of (1) the last day of the month, or (2) the last day of the pay period closest to the end of the month, except at the end of the fiscal year when it must be as of the last day of the month to meet Office of Management and Budget (OMB) reporting requirements. Payroll and Turnover data is reported as of the beginning and thru the end of the report period.

SECTION I

FEDERAL CIVILIAN WORKFORCE STATISTICS

This section contains recent data dated "as of" the date printed on the publication cover. Selected tables also contain data for the previous month. The **Employment and Trends** (formerly titled the Monthly Release) is published on a bi-monthly basis; however, data for the non-published months and for non-published tables will be furnished upon request. Requestors should identify those tables needed by table number and send requests in writing to: Statistical Analysis and Services Division, (Room 7494), Office of Personnel Management, 1900 E Street, N.W., Washington, D.C. 20415.

The personnel summaries in Table 1 and 17 present highlights of the information in Tables 2-16 and 18-31. Table 2 compares the current and previous month's Federal civilian employment by branch, agency and area. Tables 3-6 and 16 include 13-month trends for employment, payrolls, Executive Branch employment by work schedule, and turnover.

It should be noted that the net difference in turnovers (accessions and separations) will not necessarily balance with net monthly changes in employment due to lags in the reporting of transfers and variations in agency reporting periods. A separation personnel action is generally not prepared for an employee who transfers to another agency until an accession notice is received by the losing agency.

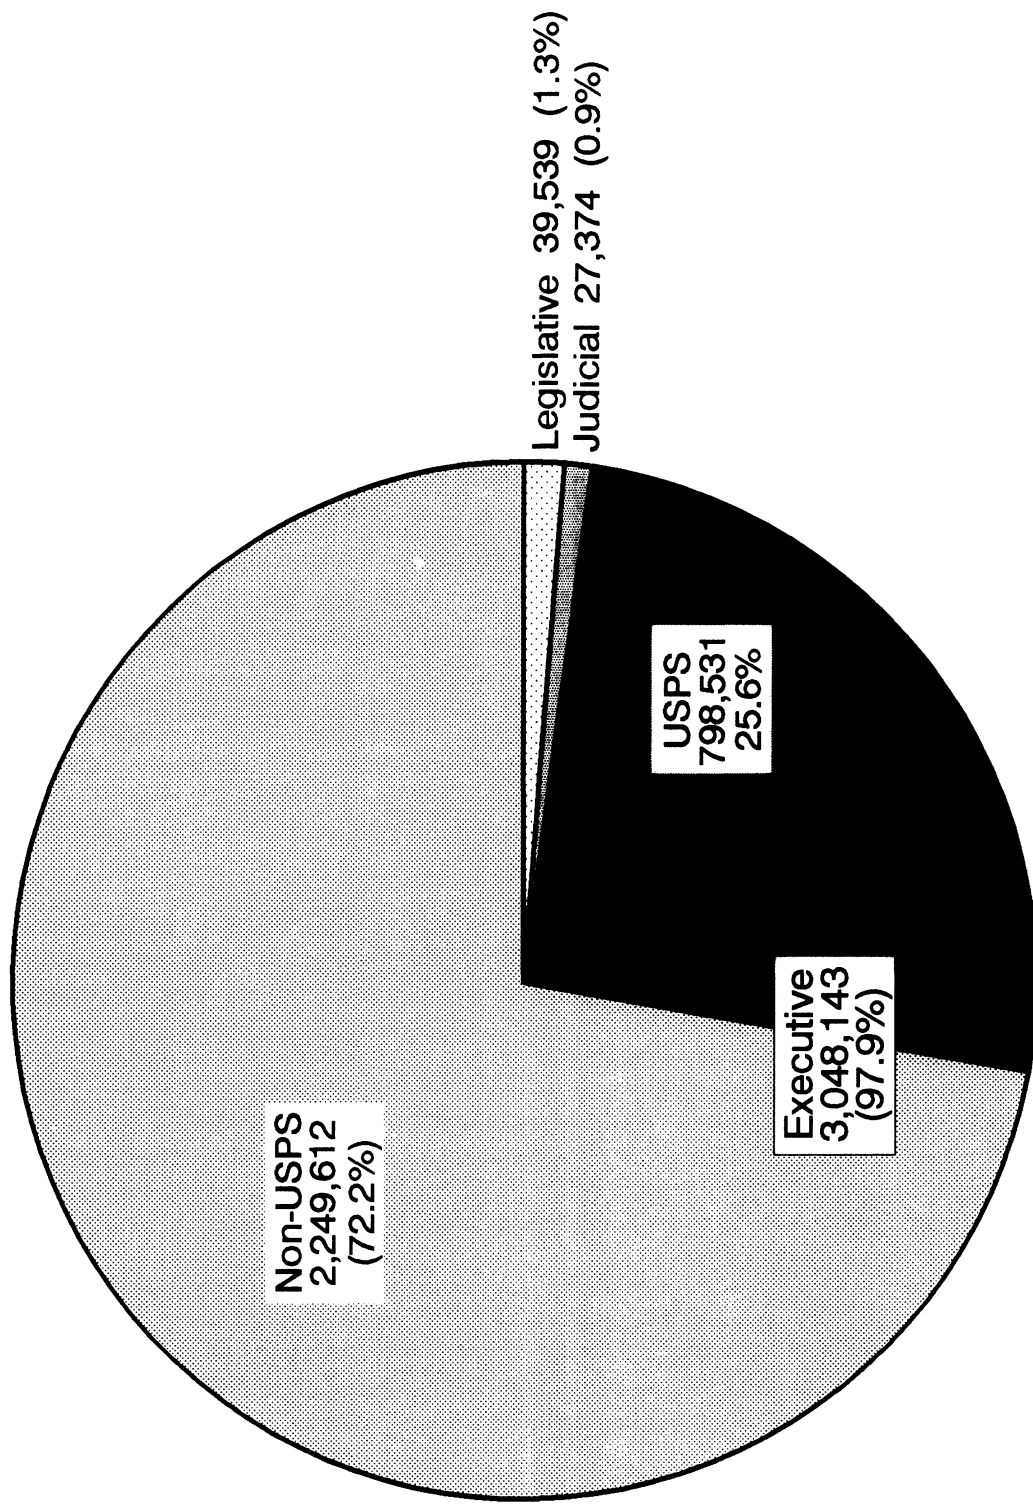

Where figures are expressed in thousands, each is rounded independently and not forced to add to rounded totals. All figures are subject to revision. Several tables present employment

data for the Washington, D.C. Metropolitan Statistical Area (MSA). The Washington, D.C. MSA includes the District of Columbia; Arlington, Fairfax, Loudoun, Prince William, and Stafford Counties; the Cities of Alexandria, Fairfax, Falls Church, Manassas, and Manassas Park in Virginia; and Calvert, Charles, Frederick, Montgomery, and Prince Georges Counties in Maryland.

Special Note to Readers Regarding Executive Branch Employment Controls

Note that unless otherwise indicated, the employment data contained herein represents on-board "head count" strength reporting, and includes the U.S. Postal Service, the civilian employees in the Department of Defense, and other employees exempt from Administration ceiling controls in the Youth Programs and Worker Trainee Opportunities Program. In some issues of the **Employment and Trends**, a contrasting measure of employment, i.e., full-time equivalent (FTE) work years is used to reflect non-postal, non-defense ceiling employment. (See the **FULL-TIME EQUIVALENT EMPLOYMENT** description on page 5.) **Therefore, caution should be exercised when determining change in employment, e.g., "head count" vs. "FTE" and "Total" vs. "related-to-ceiling" employment.** The reader should be aware also that the President has no control over employment levels in the Legislative and Judicial branches. The postal and defense workforces are controlled through the Congressional appropriations process.

A/EXCLUDES CONGRESS AND JUDICIAL BRANCH FOR WHICH TURNOVER DATA ARE NOT REPORTED. AVERAGE EMPLOYMENT IS ADJUSTED TO EXCLUDE CONGRESS AND THE JUDICIAL BRANCH IN CALCULATING TURNOVER RATES. TURNOVER DATA REFLECT EMPLOYEES IN ALL WORK SCHEDULES (FULL-TIME, PART-TIME, AND INTERMITTENT) AND ALL TENURES (PERMANENT AND TEMPORARY AND INDEFINITE APPOINTMENTS). IN THE U.S. POSTAL SERVICE, TURNOVER DATA INCLUDE ALL CATEGORIES OF POSTAL EMPLOYMENT, BOTH CAREER AND NON-CAREER; NON-CAREER TYPES INCLUDE TEMPORARIES, CASUALS, AND REPLACEMENTS FOR EMPLOYEES ON LEAVE.

SPECIAL FEATURES

FULL-TIME FEDERAL CIVILIAN EMPLOYMENT IN WHITE- AND BLUE-COLLAR OCCUPATIONS AS OF SEPTEMBER 30, 1991	78
---	-----------

Full-Time Federal Civilian Employment in White- and Blue-Collar Occupations as of September 30, 1991

by Christine E. Steele

Employment Totals

There were 2,070,240 full-time non-postal Federal civilian employees covered by the most recent occupational survey as of September 30, 1991. (The survey's data sources are described below.) Most workers (1,710,864 or 82.6 percent) were in professional, scientific, administrative, and support-type jobs commonly referred to as white-collar occupations; the remaining workers (359,376 or 17.4 percent) were in blue-collar occupations. Women comprised 49 percent of white-collar employment and 10 percent of blue-collar employment.

Major Geographic Areas

Federal white-collar employees worked around the world, but 97 percent (1,653,993) worked in the United States; 17 percent (288,716) worked in the Washington, DC-MD-VA Metropolitan Statistical Area (MSA); and 3 percent (56,871) worked in foreign countries and U.S. territories. Federal blue-collar workers were also employed primarily in the United States (350,954 or 98 percent) with only 6 percent (21,355) in the Washington, DC, area; the other 8,422 blue-collar workers (2 percent) were overseas. See Figure 1.

Average Annual Salaries

Average annual salary data are based on basic rates of pay including any locality area pay adjustments. The average annual salary of all white-collar employees as of September 30, 1991, was \$34,664. Average annual salaries are generally higher in the Washington, DC-MD-VA MSA than elsewhere since most agencies have their headquarters and senior managers in the Nation's Capital; the overall average white-collar salary in the Washington, DC, area was \$42,631. The worldwide average salary for the blue-collar workforce as of September 30, 1991, was \$28,166.

Major Agencies

The Department of Defense employed 40 percent of all Federal civilian white-collar workers: Army (248,632), Navy (201,073), Air Force (137,434), Defense Logistics Agency (42,785), and other Defense

agencies (47,574). The four other major employers of white-collar workers were the Departments of Veterans Affairs (179,610), Treasury (160,154), Health and Human Services (113,953), and Agriculture (108,350). Three of every four blue-collar workers were employed by Defense: Army (80,060), Navy (100,594), Air Force (75,279), Defense Logistics Agency (10,561), and other Defense agencies (2,019). Other major blue-collar employers were Veterans Affairs (32,072), Interior (11,495), and Tennessee Valley Authority (11,214).

White-Collar Occupations

White-collar workers are classified into more than 400 different occupations organized into 22 groups. For example, the Legal and Kindred Group includes the occupation General Attorney. The following Table A distributes full-time Federal civilian employment in white-collar occupations as of September 30, 1991, by group, geographic area, and gender. Each occupation is also identified by an occupational category: Professional, Administrative, Technical, Clerical, Other (asterisk indicates a multiple category). More than a quarter of white-collar workers (466,114 or 27 percent) worked in the General Administrative, Clerical, and Office Services Group. The other large white-collar groups were: Engineering and Architecture (172,472 or 10 percent); Accounting and Budget (153,566 or 9 percent); Medical, Hospital, Dental, and Public Health (149,250 or 9 percent); and Business and Industry (105,631 or 6 percent). See Figure 2.

Blue-Collar Occupations

The various kinds of work performed by blue-collar employees have been defined in some 400 different occupations that are organized into 37 job family groups. The following Table B distributes full-time Federal civilian employment in blue-collar occupations as of September 30, 1991, by group, geographic area, and gender. Half of blue-collar employees (189,404 or 53 percent) worked in the following eight occupational groups: Warehousing and Stock Handling (36,424), General Services and Support Work (27,702), Electronic Equipment Installation

and Maintenance (22,514), Transportation/Mobile Equipment Operation (21,676), General Maintenance and Operation (21,650), Transportation/Mobile Equipment Maintenance (20,939), Electrical Installation and Maintenance (19,365), and Metal Work (19,134).

Data Source

The primary source for these data was the Central Personnel Data File (CPDF), augmented by special

reports from six agencies for use in the occupational survey. No data were collected from Members and employees of Congress, Congressional Budget Office, Judicial Branch, White House Office, Office of the Vice President, Board of Governors of the Federal Reserve System, U.S. Postal Service, Postal Rate Commission, and foreign nationals employed overseas. The Defense Intelligence Agency, Central Intelligence Agency and National Security Agency are exempt from reporting by law.
